- MERN STACK

## PROJECTS

### E-Commerce Store

Developed a full-stack e-commerce web application using the MERN stack, providing a seamless online shopping experience.

- Implemented secure user registration and login functionalities using JWT for authentication and authorization.
- Designed and integrated a shopping cart system with real-time updates, enabling users to add, remove, and manage items.
- Built an admin panel for managing products, categories, and orders, facilitating efficient inventory and order management.
- Ensured the application is fully responsive and mobile-friendly, providing an optimal user experience across all devices.

### Crypto Tracker

Developed a responsive web application for tracking cryptocurrency prices.

- allowing users to monitor key market data for all listed coins.
- Implemented features to display the last 24-hour high and low prices, current market prices, and volume for each cryptocurrency.
- Added a search functionality enabling users to quickly find and filter specific coins from the list.
- . The project features an intuitive UI, dynamic data updates, and robust filtering options for better user experience.
